ABOUT US

OUR HISTORY

DOANIS was founded in 2007 as an indigenous local independent Social Audit and Inspections company that specializes in Social Audits, Ethical Standards and Inspections.

DOANIS offers quality audits, ethical standards and inspections within the African continent employs 10 Social, Quality and Security Auditors in the country.

Our services are known for ensuring compliance with Labor Laws and Company Standards in regards to ethical employment.

This promotes an ethically sound environment for employees. We have been successful in the international market and notably in performing audits in countries such as Kenya, Uganda, Tanzania, Ethiopia, Ghana, South Africa and Lesotho among others.

VISION

To be the leading Quality Control Service Provider in Africa by delivering outstanding awareness and nurturing international standards through Inspections and Audits.

MISSION

To promote International Standards by conducting Ethical & Quality Inspections and Audits.

VALUES

We are bound by Integrity, Honesty and Innovation.

• Apparel Inspection

Doanis comprehensive textile and apparel inspection services help assure the delivery of the highest-quality products to market with speed and precision.

The textile and apparel supply chain often puts retailers and brands thousands of miles away from their production sites, making inspection an important part of the manufacturing process to assure quality. From raw materials to finished goods, Doanis inspection services can identify defects and non-compliance during different stages of the production process.

• Social Audits

As a measure of an organization's ethical standards, processes and practices on their employees and environment, DOANIS focuses on continuous processes to verify that client's suppliers;

- Practice Integrity and enforce labor laws in their operations.
- Have the ability and capacity to deliver quality products and services.
- Meet the ethics and suppliers' guidelines regardless of the scale at which they serve you.

• Security Audit (SCAN/C-TPAT)

We conduct a full assessment once a year at a minimum, as circumstances dictate during periods of heightened alert, security breach or incident.

The assessment is a complete analysis of your international supply chain (which includes your business partners for outsourcing, contract manufacturing, installation, storage and transportation providers) to ensure that pertinent security measures are in place.

• Security Audits

We are a team of food safety experts that can assist with quality assurance, training, implementation of food safety systems required in the food business, internal and pre audit services.

We assist food companies meet their food safety goals and create a food safety culture by delivering a customized service based on their needs and business with utmost regard to Standards and regulatory needs.

OUR STANDARDS

We adhere to the following standards when conducting audits and inspections:

- ILO standards
- C-TPAT/SCAN standards
- Clients' Specific standards
- Local Laws and regulations
- SA 8000

CERTIFICATION

Our certifications include the following:

Certificate No.: BRC/ATP150/TPA/121 Quality Management Systems Auditor/Lead Auditor Training Course.

Certificate Number: 200188-218738 SCAN Service Provider Training
